

Education Modified

An Collaboration Platform for Special Education Instruction

Overview

Education Modified is a research-based collaboration platform, embedded directly in your Schoology LMS, that enables all teachers to access, share & use information to improve instruction for students with IEPs, 504s, Behavior Plans, and other learning needs, such as English Language Learners.

The screenshot shows the Education Modified interface within a Schoology LMS. The breadcrumb trail is "Home > Algebra 101: Section 1 > Education Modified". The interface includes a search bar for students, navigation tabs for "Courses", "Groups", and "My Students", and a sidebar with various educational tools like "Materials", "Updates", "Gradebook", and "Attendance". The main content area displays "Algebra 101 - Section 1" with a list of students and their learning needs. A table summarizes the data:

STUDENT NAMES	IEP	504	ELL	EXTENDED TIME
Sally Allen		✓		✓
Joseph Beau	✓			
John Craig				
Ashley Faaborg	✓			
Cooper Jolston				✓
Sean Li		✓		
Eliisa Margolia	✓			✓
Joseph Maris			✓	✓
Margaret Morrison		✓		✓
Julia Oscar	✓			✓
Sawyer Palm			✓	

- Difficulty tracking who has an IEP, 504s or other learning plan
- Difficulty communicating instructional plans with all staff
- Difficulty synthesizing every student's needs for instruction
- Difficulty storing and sharing information

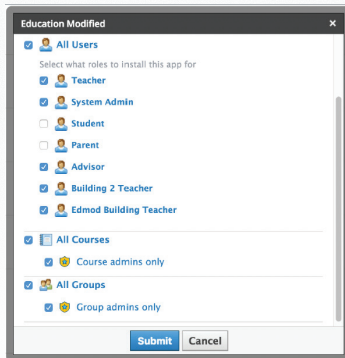

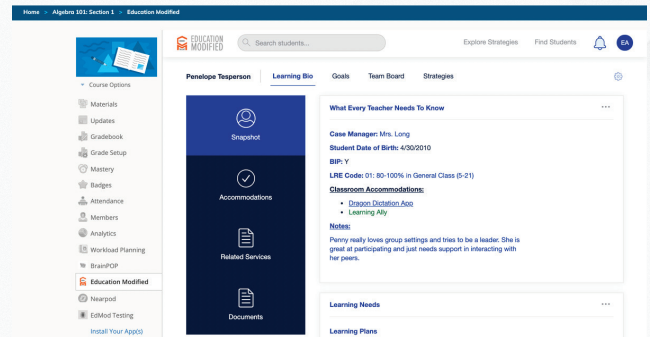

Solution

Education Modified securely houses information & provides innovative workflow tools to access IEP information, strategies & goals data. Progress monitoring tools, a Team Board and a library of research-based strategies provides users with everything they need, **all in one place, in Schoology**.

Streamlined Access to Information

All information & documentation is organized & accessible for every student in Schoology Courses & Groups. Teachers get IEP information, without having to access the entire IEP document.

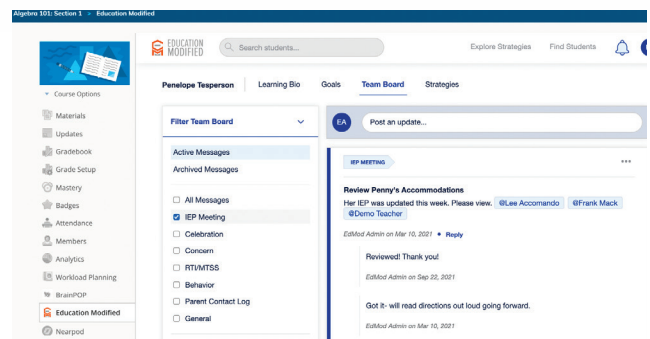

Secure & Private Student Information

With direct rostering in Schoology, teachers are only able to see information for students who are in their class or caseload.

Enhanced Staff Collaboration

EdMod empowers all users, including teachers, para professionals & counselors, to share strategies, professional memory, data on goals, and other learning needs information to collaboratively monitor progress.

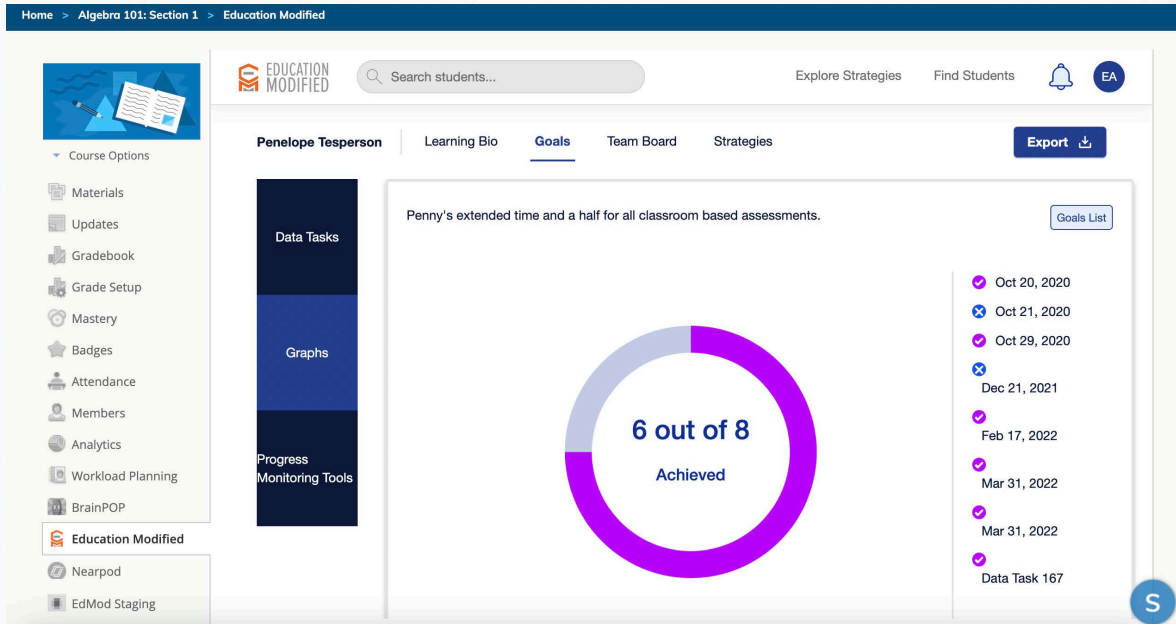

Having this add-on in our Schoology LMS is a game-changer.

-Special Ed Director, PA

Use Cases

Special Ed Admins, Special Ed Coordinators, Special Ed Teachers, ELL Teachers, General Ed Teachers, Special Ed Data Clerks, ELL Coordinators, Social Emotional Generalists, 504 Coordinators, Behavior Interventionists, and Counselors, all use EdMod as a virtual hub for special education delivery.

With the support of the Institute for Education Sciences at the US Department of Education, Education Modified conducts research and development to innovate the IEP process and improve instruction for students with disabilities.
