

Protocol for SPED Program Change Considerations

<u>Protocol Directions</u>: This protocol should be used whenever the team is considering making changes for a student with an IEP or 504 plan to a more restrictive special education program or placement. This document should be submitted to the Special Education Department at least 30 days prior to a review meeting. A copy should be placed with records for the student, and please keep a copy of this protocol for your records.

Action Items for a More Restrictive Program Consideration

Action Items	Observations	Evidence of Data (with Date Completed)
Step 1 Assess: The current IEP programs, services, supplementary aids, modifications, & accommodations	 □ Was the IEP implemented with fidelity? □ Were all possible supplementary aids, program modifications, and accommodations implemented? □ Is there data to indicate that the student is not making adequate progress (i.e., comparing the student to themselves and other students)? 	
Step 2 Assess: Current Behavior Plan (or considerations for implementation of a behavior plan)	 ☐ Has a BIP been established and implemented with fidelity (necessary data needed when considering a placement change for behavior reasons)? ☐ Does the BIP indicate progress? ☐ Was the continuum of SPED services explored? ☐ Is the student meeting their IEP goals and/or making substantial progress? ☐ Was the whole student profile (e.g., cognitive ability, academic achievement, adaptive functioning, social/emotional functioning, etc.) considered? 	
Step 3 Communicate & Collaborate	 □ Were observations and data shared with the team (e.g., SPED teachers, support staff, service providers)? □ Were observations and data communicated with the school 	

Was feedback & data solicited from all team members? Have you observed the more restrictive placement or special classes, paying close attention to the rigor, instructional materials utilized, pacing, student responsibility, total support in the class, and socialization/group work? Were observations and data shared with parents and asked about what they have observed, as well as their concerns? - It is not appropriate to inform a parent that the committee will be making a change in placement. Predetermination is illegal. At this point, you should just be discussing concerns and understanding their concerns. Did you communicate observations and data with the student and discuss their thoughts on next steps? - Discussions with students should occur only after the Director of Pupil Personnel, Special Services Chairperson, Principal, and parents have been informed. Other Notes & Considerations:		psychologist?	
 ☐ Have you observed the more restrictive placement or special classes, paying close attention to the rigor, instructional materials utilized, pacing, student responsibility, total support in the class, and socialization/group work? ☐ Were observations and data shared with parents and asked about what they have observed, as well as their concerns? It is not appropriate to inform a parent that the committee will be making a change in placement. Predetermination is illegal. At this point, you should just be discussing concerns and understanding their concerns. ☐ Did you communicate observations and data with the student and discuss their thoughts on next steps? Discussions with students should occur only after the Director of Pupil Personnel, Special Services Chairperson, Principal, and parents have been informed. 		☐ Was feedback & data solicited from all
